NOV 18 2002

Dear Sir,

Technology Center 2100

Response H

The standing claims are reproduced below as an aid in prosecution. No
Amendments to the claims are herein made in this present response.

E' 500
F17
1. (Amended) In an object-oriented programming interface for use by a
programmer in a computer readable medium, a software Interactive Media
Viewer (IMV) module, comprising:

a code set adapted to access and present media code from multimedia files
stored in a data repository; and

an editable layer allowing the programmer to program selective control of
access by the IMV to the multimedia files;

wherein the multimedia files include at least telephony, interactive voice
response (IVR), and e-mails, and the programmed selective control in the editable
layer restricts selected multimedia files from being accessed by the IMV.
